

DATASHEET

GAL535-01-B08

Product Description and Application

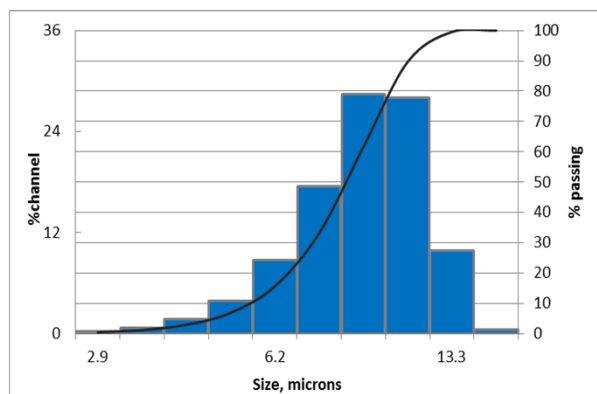

- GAL535-01-B08 green phosphor is designed for high CRI general lighting applications and can be used as one of the components in warm white.
- GAL535-01-B08 green phosphor has high brightness, superior thermal stability and high reliability, which are all characteristics of Intematix aluminate phosphors.
- Intematix aluminates enable 90+ CRI in blends with their red nitrides.

Intematix GAL® phosphor composition is protected by US Patent 8,529,791.
